Ask us about the color charts and other details from Kingdom products Many sealers and products in stock, plus we can order in what you need! Contact us for trusted and reliable services in Schuylkill County and the surrounding areas.

### **Sure Grip-Fine Anti Slip Additive**

Kingdom Products' Grip Fine is a micronized polymer specially designed for added grip, slight loss of gloss and fine

texturing in solvent based acrylic concrete coatings, paints, etc. Because of Grip Fine's high solvent resistance and very

low oil absorption, it will stir into solvent based acrylic coatings easily without noticeably changing sealers viscosity.

Suspension is a key characteristic of Grip Fine due to its low density, even in very low viscosity coatings.

Packaged in 16oz containers.
